Hi-

I am going to have Martha initiate the first draft of EPA's response to NWEA's letter as requested by Opalski. Then when Jenny and Jayne are back in the office, I will need one of you to take-over completing the letter. Thanks

Dave -- I may have missed this if/when it came to me directly (the letter Nina talked to Dave about), but in any event, please prepare a response for my signature. It'd be nice if I could sign something the week I get back. Christine can sign for me if something gets done before I return.

Ex. 5 - Deliberative

Thx, DanO.

Please find attached a letter regarding consistency of Oregon's agricultural program with CZARA and an accompanying short video (with audio).
